

SHIVAN MISHRA

shivrom.2020@gmail.com +91-9935806722 [LinkedIn](#), [Portfolio](#), [GitHub](#)

PROFESSIONAL SUMMARY

AI/ML enthusiast with hands-on experience in Machine Learning, NLP, predictive analytics, and Full-Stack Development. Skilled in Python, Deep Learning, and data-driven application development, with a strong focus on building scalable AI-powered solutions and analytical systems.

EXPERIENCE

Data Scientist Intern - [Clinch Soft Bridge](#)

[Jan 2026 – Feb 2026](#)

- Developed an **AI-driven judicial analytics platform** using Python, **Azure Document Intelligence**, NLP, and MySQL to process and analyze High Court hearing transcripts.
- Built automated ETL pipelines for **OCR-based** document ingestion, schema-driven legal entity extraction, data validation, and structured storage in MySQL.
- Implemented **sentiment analysis** on legal statements and proceedings to identify **sentiment trends** and critical observations from case hearings.
- Designed interactive dashboards and reporting modules for daily, weekly, and monthly analytics including gender-wise case trends, location-based analysis, pending cases, and case resolution metrics.
- Optimized large-scale transcript processing workflows using REST APIs, text analytics, and automated reporting pipelines.

AI/ML Intern — [Labmentix](#)

[Jun 2025 – Aug 2025](#)

- Developed a Deep Learning-based fish species classification system using **CNNs** with **TensorFlow/Keras** for image recognition and feature extraction. Applied image preprocessing and augmentation techniques to improve model accuracy and performance.

PROJECTS

FlashNotes – AI-Powered Learning & Productivity Platform([GitHub](#) , [Project](#) , [Streamlit](#))

- Developed a full-stack AI-powered learning platform using **React.js**, **FastAPI**, **Supabase**, and **Streamlit** with features like AI Notes Generation, QA Generator, Roadmap Generator, PDF Summarizer, and **RAG** implementation using **OpenRouter** and **Gemini APIs** with fallback mechanisms.
- Implemented Speech-to-Text voice notes via **Web Speech API**, real-time analytics dashboards using **Pandas** & **Plotly**, gamification features (leaderboard, certificates, points system), and deployed across **Vercel**, **Render**, **Streamlit Cloud**, and Electron desktop app.

QuickDocAI- AI-Powered Healthcare Platform ([GitHub](#) , [Project](#))

- Developed a full-stack AI-based medical documentation system designed to simplify healthcare workflows through intelligent document generation, summarization, and management.
- **Smart AI Document Processing** – Integrated advanced AI capabilities for automatic medical document summarization, report generation, and intelligent text processing, enabling users to quickly analyze and manage healthcare-related documents.
- **Full-Stack Architecture & API Integration** – Designed and implemented backend services with secure API handling, authentication systems, and optimized data flow management to support real-time AI-driven operations and smooth platform performance.
- **Cloud Deployment & Scalability** – Successfully deployed the application on Vercel with optimized frontend performance and scalable cloud infrastructure, ensuring fast loading speed, secure access, and reliable availability for end users.

Brain Tumor MRI Classifier([GitHub](#))

- Developed a medical imaging classification system using Deep Learning (**CNN**) in Python to automatically detect and classify brain tumors from MRI scans.
- Built and trained a Convolutional Neural Network (CNN) model with TensorFlow/Keras to learn discriminative features from **MRI images** and distinguish between healthy and tumor-affected cases.
- Applied image preprocessing, augmentation, and evaluation techniques to improve model accuracy and medical image classification performance.

ACADEMICS: -

- Bachelor of Computer Applications (BCA) United University, Prayagraj | (87.1%) **2023-2026**

SKILLS

Python | JavaScript | SQL | React.js | FastAPI | TensorFlow | Keras | Scikit-learn | Pandas | NumPy | Seaborn | SQLAlchemy | MySQL | Supabase | Firebase | Microsoft Azure Azure Document Intelligence | Git | OCR Processing | ETL Pipelines | NLP | Data Visualization | API Development | TailwindCSS

CERTIFICATES

[Certified in Python](#) | [Certified in Machine Learning](#) | [Certified in Artificial Intelligence](#) | [Certified in Data Science](#) | [Certified in Data Visualisation](#)
